PROFESSIONAL EXPERIENCE

Full-Stack Developer

AUREN Uruguay · Mar 2025 – Present

Full-stack development and maintenance of corporate applications with a focus on frontend (.NET MVC, Next.js).

- Led a complete Next.js project refactor, aligning it with current best practices and significantly improving maintainability.
- Implemented an end-to-end pagination and filtering system (frontend, backend, and database), reducing query overhead and cost by 66%.
- Redesigned a desk reservation module using draggable HTML elements with coordinate mapping, delivering a flexible, office-layout-agnostic booking system.
- Built reusable views and components in .NET MVC; contributed to Next.js projects, promoting adoption of modern web technologies within the team.
- Analyzed deployed cloud infrastructure and identified cost optimization opportunities, reducing monthly expenses by 57%.
- Stack: C# (.NET, EF), ASP.NET MVC (Razor), Next.js, React, JavaScript, Bootstrap, Tailwind, SQL Server, Git/GitHub.

Full-Stack Developer

Barbería Simois · Jun 2025 – Mar 2026

Full-stack development of a barbershop management platform with two separate applications: one for clients and one for employees.

- Implemented comprehensive management of appointments, clients, branches, barbers, products, services, discounts, schedules, and operational metrics.
- Designed the application architecture and database schema from scratch.
- Stack: Next.js, Node.js (Express.js), TypeScript, SQL Server Express, Tailwind, Git/GitHub, AWS.
